08/29/05 – Rich Batie and John Sims spoke with Keith Dohrman with Iowa Department of Natural Resources, Water Quality Bureau (DNRWQB) at (515) 281-8967, regarding Condition #2 served in the STB decision dated August 16, 2004. The condition required BNSF to, consult with DNRWQB prior to commencement of any salvage activities on the line regarding possible permitting requirements. Batie and Sims explained that the bridge had been previously removed. Mr. Dohrman indicated that since the bridge was out, then no permit is necessary.
